ABOUT US

WHO WE ARE

MaxAPEX has been an **IT services** provider since **2008**, delivering secure, scalable, and tailored solutions for businesses in over **85 countries**. Our services include **Oracle APEX hosting**, Cloud Management for **OCI, AWS, Azure, On-prem** servers, and other platforms, as well as application development, AI solutions, and DevOps services.

Our team at MaxAPEX is composed of highly **skilled professionals** with extensive experience in **IT services**. We are dedicated to delivering **innovative, secure, and customized** solutions, ensuring our clients achieve their business objectives efficiently and effectively.

OUR SERVICES

MaxAPEX Cloud provides a wide range of information technology services, including DevOps, cloud and hosting management on OCI, AWS, Azure, and other cloud platforms. We also offer application development, server management, AI services, and deployment services to meet your business needs.

APEX Hosting

Our Oracle APEX Hosting services are reliable and scalable, tailored to your needs. We offer a range of hosting options, including shared, dedicated, on-premise, and more. Our expert support team ensures your application runs smoothly, allowing you to focus on your business.

DevOps

Our DevOps services streamline software development and IT operations, enhancing collaboration and efficiency. We automate workflows, manage infrastructure, and ensure rapid, reliable delivery of applications. With expertise in tools like Docker, Kubernetes, and Jenkins, we optimize your development process and accelerate time-to-market.

Mobile App Development

Develop Mobile Apps with a focus on delivering optimal performance and an exceptional user experience across various devices.

Cloud Management

Our cloud management services on OCI, AWS, Azure, and other platforms ensure optimal performance, cost efficiency, and security for your cloud infrastructure. Our expertise ensures seamless integration and management across multi-cloud environments, maximizing your cloud investment.

AI Services

Our artificial intelligence services encompass a wide range of solutions designed to enhance your business operations. We leverage AI technologies to drive innovation and efficiency in your organization. Our experts tailor solutions to your specific needs, ensuring optimal productivity.

Django Development

Leverage Django's robust framework to create high-performance web applications tailored to your business needs.
